

ZEUS FTI-1200

The Industrial Sieve “ZEUS” FTI-1200 is perfect for particle size separation of solid/solid and liquid/solid.

- Made in stainless steel AISI 304 or AISI 316, according to request.
- Motor of eccentric masses that generates a three-dimensional movement facilitating to the maximum the sieving of the product.
- Allows 4 levels of sieving.
- Tapered bottom with side outlet for product unloading.
- Body with or without exit, according to request.

Options:

- > Cover in stainless steel.
- > Peepholes on top and/or bodies.
- > Sieving aid system: Balls, slip rings, ultrasound, water diffusers in lid and/or bodies, choppers, spiral and centering.
- > Clamps with quick closing system.
- > Outlets with spigot BFM connection.

Possibility of manufacture for explosive atmospheres.

TECHNICAL FEATURES						
	Voltage (V)	Freq. (Hz)	(r.p.m)	(A)	Power (kW)	Weight (Kg)
FTI-1200	400/460	50/60	1500	3,6	2,0	337

TECHNICAL FEATURES

- > Mesh long life
- > Dust and liquid resistant
- > Simple electrical connection
- > Low power consumption
- > Easy to use

INCLUDES:

- > FTI-1200 with 1 screen deck
- > User manual
- > CE declaration of conformity
